

Sex, Drugs and Blood Borne Viruses (BBVs)

Free 1 day training course

This training aims to increase workers' understanding and knowledge of key issues related to blood borne viruses (BBVs - Hep B, Hep C, and HIV) with a particular emphasis on risks associated with drug use and sexual health.

By attending this training, participants will be able to:

- Recall transmission routes and prevention strategies for the three BBVs.
- Describe the different testing methods and treatment options available.
- Understand the public health priorities for each of the three BBVs for people who use drugs.
- Confidently engage with service users and professionals on issues around BBVs.
- List key resources and services available to support those affected by BBVs.

Date: Tuesday 29th October 2019

Time: 9:30-4:30

Venue: Mayfield Community Centre, Sunnybank Rd, Stirling. FK7 0DB
